

# The CIO Report

*Brad Burshem*  
*Interim Chief Information Officer*  
*November 12, 2013*

# Agenda

- Realignment
- Current Activities
  - Board Projects
  - Infrastructure Projects
- Future Outlook
  - Gantt chart of current work

# Realignment

- New IT organizational structure has been further refined with a focus on Board projects and product management
- IT governance and IT service delivery have also evolved
- Defined the mission, vision and strategy of the IT department

# Mission, Vision

## Mission:

Delivering comprehensive, cost effective technology services

## Vision:

Advancing organ transplantation through information technology with a culture of innovation and empowerment consistent with UNOS core values

# In Flight Project Status

- Improve Imaging Criteria for Liver HCC Imaging Exceptions
- Waitlist rewrite
- Update cPRA, HLA frequencies and CPRA defaulting to 0 default
- Kidney paired donation
- New kidney allocation system

# Infrastructure Update

- Network hardware refresh
- Microsoft backup solution
- Desktop refresh
- UNet SQL 2012 upgrade
- SharePoint 2013 upgrade

# Future Outlook

Enhancing the Members' user experience

- IT assisting with the ETT project
- Support for multiple browsers (DonorNet®)
- Support for mobile devices (DonorNet®)
- Evaluate future DonorNet® enhancements

# BOD Projects 2014 – Large Efforts

- LAS – Add bilirubin to the lung algorithm
- Modify patient safety information
- Modify OPO and transplant center requirements for screening, communicating and reporting all potential or confirmed donor-related disease and malignancy transmission events
- Ped liver remove ICU requirement & modify ped liver hepatoblastoma
- Improvements to vessel disposition reporting
- National pancreas allocation
- Tiedi/OMB changes

# BOD Projects 2014 – Small Efforts

- Modify requirements for mandatory HTLV-1/2 testing for all potential donors
- Reorganize hemodynamic data on adult heart Status 1A justification form
- Reinstate the “No Appeal/No Withdraw” button for denied MELD/PELD exceptions
- Clarify data entry screens for A2 and A2B in UNet<sup>SM</sup>

# 2014 Plan

			2014											
1Q			2Q			3Q			4Q			1Q		
Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Waitlist Re-write			BOD: LAS									BOD: Improve Vessel		
BOD: Hemodynamic Data			Tiedi and OMB changes											
BOD: Mod HTLV-1/2														
BOD: KAS - KI/PA Wait Time														
BOD: KAS - Match														
BOD: K/P & Pancreas														
BOD: KPD			BOD: KPD Phase 4						BOD: Mod OPO and Tx Pol. 2.0 & 4.0					
BOD: Mod Patient Safety						BOD: Ped Liver Remove ICU Req & Mod Ped Liver Hepatoblastoma								
BOD: Re-instate No Appeal						BOD: Clarify 2A & A2B								
BOD: Update CPRA Phase 1			BOD: CPRA Phase 2			System Transformation								
Expanded browser compatibility and support for tablets														
									Integrate DonorNet®'s import/export feature with the new ETT					

# 2015 Plan

				2015																
1Q				2Q			3Q			4Q			1Q							
Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec					
BOD: Improve Vessel				BOD: Require Report Non Utilized Living					BOD: Consent to Authorization				System Transformation							
				BOD: Req. Deceased Donor Typing by DNA																
OPO and Tx Pol. 2.0 & 4.0				Update the Potential Donor (PDDTE)					DomorNet Enhancements											
& Mod Ped Liver Hepatoblastoma				Addition of "Other" field to diagnosis data element > 12																
n				System Transformation																

# A New Approach
